1. the Dresden-Klotzsche (N 52/F 29) airfield The weather was clear. All the hangars were closed. The buildings at the field were not lighted at night. No soldiers were observed during the day. No runway or taxiway was seen on the landing field which was in poor condition. 25X1
2. North of the field there were woods and adjacent to them a broad flat area. A settlement and a fence were observed at the southeast edge of the field. Several types of practice targets were seen in the area which was apparently an infantry training field. About 40 soldiers who wore red-bordered black and black-bordered black epaulets were seen in the barracks on the training field.
3. Three railroad boxcars, guarded by a sentry, were seen on the spur track on the northwest edge of the field. A total of six sentries were seen posted at various spots in the area of the field. the field was not occupied by Soviet Air Force personnel or by aircraft. * 25X1

* Comment. No reports have been received indicating that an air force unit is stationed at the field. 25X1
